1. CORPORATE INFORMATION

ECOPORT TECHNOLOGY PTE. LTD. is domiciled and incorporated in the Republic of Singapore on with a registered office at 51 Goldhill Plaza, #20-07, Singapore 308900.

The principal activity of the Company is that of wholesale trade of a variety of goods without a dominant product. There have been no significant changes in the nature of these activities since the date of incorporation.

The immediate and ultimate holding companies are VENTURO TRADE & INVESTMENT PTE. LTD. and SOUTHEAST TECHNOLOGY DEVELOPMENT (SINGAPORE) PTE. LTD. respectively, which are incorporated in Singapore.

2. MATERIAL ACCOUNTING POLICY INFORMATION

2.1 Basis of Preparation

The financial statements of the Company have been drawn up in accordance with Financial Reporting Standards in Singapore (FRSs). The financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in US Dollars (US$), which is the Company's functional currency.

The financial statements of the Company have been prepared on the basis that it will continue to operate as a going concern.

2.2. Adoption of new and amended standards and interpretation

The Company has adopted all the new and amended standards which are relevant to the Company and are effective for annual financial period beginning on 1 January 2025. The adoption of these standards did not have any material effect on the financial statements of the Company.

2.3 Standards issued but not yet effective

A number of new standards and amendments to the standards that have been issued are not yet effective and have not been applied in preparing these financial statements. The directors expect that the adoption of these new and amended standards will have no material impact on the financial statements in the year of initial application.

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.4 Basis of non-consolidation

These financial statements are separate financial statements of Ecoport Technology Pte. Ltd. The Company is exempted from the preparation of consolidated financial statements as the Company is an immediate wholly owned subsidiary of VENTURO TRADE & INVESTMENT PTE. LTD. which is under the SOUTHEAST TECHNOLOGY DEVELOPMENT (SINGAPORE) PTE. LTD. which are Singapore incorporated company which produces consolidated financial statements available for public use. The registered office of the immediate and ultimate holding companies is at 51 Goldhill Plaza, #20-07, Singapore 308900

2.5. Foreign currency transactions and balances

Transactions in foreign currencies are measured in the functional currency of the Company and are recorded on initial recognition in the functional currency at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

2.6 Financial instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Other receivables are measured at the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.5 Financial instruments (cont'd)

Subsequent measurement

Equity instruments

On initial recognition of an investment in equity instrument that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in other comprehensive income which will not be reclassified subsequently to profit or loss. Dividends from such investments are to be recognised in profit or loss when the Company's right to receive payments is established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income.

For investments in equity instruments which the Company has not elected to present subsequent changes in fair value in other comprehensive income, changes in fair value are recognised in profit or loss.

(a) Financial assets

Loans and receivables

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

Derecognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.5 Financial instruments (cont'd)

(b) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at FVPL, net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, financial liabilities that are not carried at FVPL are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss

2.6 Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

2.7 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2.8 Cash and cash equivalents

Cash and cash equivalents comprise cash at banks which are subject to an insignificant risk of changes in value.

2.9 Taxes

(a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2.10 Share capital

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.11 Revenue

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation

(a) Sale of goods

Revenue is recognised when the goods are delivered to the customer and all criteria for acceptance have been satisfied. The goods are often sold with a right of return and with retrospective volume rebates based on the aggregate sales over a period of time.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

3.1 Judgements made in applying accounting policies

(a) Determination of functional currency

In determining the functional currency of the Company, judgement is used by the Company to determine the currency of the primary economic environment in which the Company operates. Consideration factors include the currency that mainly influences sales prices of goods and services and the currency of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services.

9. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include foreign currency risk and interest rate risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Company. The Company does not use derivative financial instruments.

The following sections provide details regarding the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

(a) Foreign currency risk

The Company has transactional currency exposures arising from interest income that are denominated in a currency other than the functional currency of the Company, primarily SGD. The Company ensures that the net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates where necessary, to address short term balances.

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk arises primarily from cash and cash equivalents. The Company does not expect any significant effect on the Company's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the financial year.
