1. CORPORATE INFORMATION

PIYUN INVESTMENT SG PTE. LTD is domiciled and incorporated in the Republic of Singapore on with a registered office at 51 Goldhill Plaza, #20-07, Singapore 308900.

The principal activity of the Company is those of other holding companies and management consultancy services.

The principal activities of the subsidiary are described in Note 8 to the financial statements.

2. MATERIAL ACCOUNTING POLICY INFORMATION

2.1 Basis of Preparation

The financial statements of the Group and of the Company have been drawn up in accordance with Financial Reporting Standards in Singapore (FRSs). The financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in United States Dollars (USD), which is the Company’s functional currency.

The Group and the Company incurred a net loss of US$4,751,250 and US$4,764,358 respectively for the financial period ended 31 December 2023 and its total liabilities exceeded its total assets by US$2,945,862 and US$2,964,609 as at 31 December 2023. These factors indicate the existence of a material uncertainty which may cast significant doubt over the Company's ability to continue as a going concern.

The financial statements of the Group and of the Company have been prepared on the basis that it will continue to operate as a going concern.

2.2. Adoption of new and amended standards and interpretation

The Group and the Company have adopted all the new and amended standards which are relevant to the Company and are effective for annual financial period beginning on 1 January 2023. The adoption of these standards did not have any material effect on the financial statements of the Company.

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.3. Standards issued but not yet effective

The Group and the Company have not adopted the standards applicable to the Group and the Company that have been issued but are not yet effective. The directors expect that the adoption of the standards above will have no material impact on the financial statements in the year of initial application.

2.4. Basis of consolidation

The consolidated financial statements incorporate the financial statements of the parent and its subsidiary. Subsidiary is entity controlled by the parent. Control exists when the parent has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Investments in a subsidiary is accounted for in the Company's separate financial statements at cost less any accumulated impairment losses.

The income and expenses of a subsidiary are included in the consolidated financial statements from the acquisition date until the date on which the parent ceases to control the subsidiary. When a parent ceases to control a subsidiary, any difference between the proceeds from the disposal of a subsidiary and the carrying amount as at the date that control is lost is recognised in profit or loss in the consolidated statement of comprehensive income as gain or loss on the disposal of the subsidiary. The cumulative amount of any exchange differences that related to a foreign subsidiary recognised in other comprehensive income is not reclassified to profit or loss on disposal of the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events and conditions in similar circumstances.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from the equity of the owners of the parent. Non-controlling interests are also separately disclosed in the consolidated statement of comprehensive income.

All intragroup balances, transactions, including income and expenses are eliminated in full.

2.5. Foreign currency transactions and balances

Transactions in foreign currencies are measured in the functional currency of the Group and the Company and are recorded on initial recognition in the functional currency at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

2.6 Financial instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Group and the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Group and the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

Subsequent measurement

Equity instruments

On initial recognition of an investment in equity instrument that is not held for trading, the Group and the Company may irrevocably elect to present subsequent changes in fair value in other comprehensive income which will not be reclassified subsequently to profit or loss. Dividends from such investments are to be recognised in profit or loss when the Group and the Company's right to receive payments is established, except when the Group and the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income.

For investments in equity instruments which the Group and the company has not elected to present subsequent changes in fair value in other comprehensive income, changes in fair value are recognised in profit or loss

Derecognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gains or losses that have been recognised in other comprehensive income are recognised in profit or loss.

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.6 Financial instruments (cont'd)

(a) Financial assets

Loans and receivables

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

Loans and receivables comprise of cash and cash equivalents.

Cash and cash equivalents comprise of fixed deposit and cash at bank.

Derecognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

(b) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Group and the Company becomes a party to the contractual provisions of the financial instrument. The Group and the Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at FVPL, net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, financial liabilities that are not carried at FVPL are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.6 Financial instruments (cont'd)

(b) Financial liabilities

Derecognition
A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss.

2.7 Impairment of financial assets

The Group and the Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group and the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

2.8 Derivative financial instruments

A derivative financial instrument for which no hedge accounting is applied is initially recognised at its fair value on the date the contract is entered into and is subsequently carried at its fair value. Changes in its fair value are recognised in profit or loss. The Group and the Company does not apply hedge accounting for its derivative financial instruments.

2.9 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and short-term highly liquid fixed deposits with a maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

2.10 Provisions

(a) General

Provisions are recognised when the Group and the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.11 Taxes

(a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2.12 Share capital

Proceeds from the issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.13 Revenue

Revenue is measured based on the consideration to which the Group and the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group and the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

Revenue primarily includes:

(a) Dividend income

Dividend income is recognised at a point in time when the right to receive payment is established.

(b) Interest income

Interest income is recognised over time using the effective interest method.

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.13 Revenue (cont'd)

(c) Commission income

Commission income is recognised at a point in time when the right to receive payment is established.

(d) Net gain/(loss) from financial assets at fair value through profit or loss ("FVTPL")

Gain/loss on disposal of financial assets at FVTPL are recognised at a point in time when disposed.

Changes in fair value of financial assets at FVTPL are recognised at end of reporting period. Net gain/loss from investment at FVTPL excludes dividend income.

2.14 Employee benefits

Defined contribution plans

The Group and the Company makes contributions for the employees. Contributions to defined contribution schemes are recognised as an expense in the period in which the related service is performed.

(b) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

2.15 Taxes

(a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2.16 Related parties

A related party is defined as follows:

(a) A person or a close member of that person's family is related to the Company if that person:

(i) Has control or joint control over the Company;

(ii) Has significant influence over the Company; or

(iii) Is a member of the key management personnel of the Company or of a parent of the Company.

(b) An entity is related to the Company if any of the following conditions applies:

(i) The entity and the Company are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).

(ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).

(iii) Both entities are joint ventures of the same third party.

(iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

(v) The entity is a post-employment benefit plan for the benefit of employees of either the Company or an entity related to the Company. If the Company is itself such a plan, the sponsoring employers are also related to the Company;

(vi) The entity is controlled or jointly controlled by a person identified in (a);

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group and the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

17. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group and the Company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, foreign currency risk and interest rate risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Group. The Group does not use derivative financial instruments.

The following sections provide details regarding the Group's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

(a) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from other receivables. For cash and cash equivalents, the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties. In addition, receivable balances are monitored on an ongoing basis and as such, the impact of any expected credit loss allowance is insignificant.

The Group and the Company has determined the default event on a financial asset to be when the counterparty fails to make contractual payments, which are derived based on contractual terms.

(b) Liquidity risk

Liquidity risk refers to the risk that the Group and the Company will encounter difficulties in meeting its short-term obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. It is managed by matching the payment and receipt cycles. The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities. The Group and the Company finances its working capital requirements through a combination of funds generated from operations or internal funding through shareholders. The directors are satisfied that funds are available to finance the operations of the Group and the Company.

(c) Foreign currency risk

The Group has transactional currency exposures arising from interest income that are denominated in a currency other than the functional currency of the Company, primarily SGD. The Group ensures that the net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates where necessary, to address short term balances.

17. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to interest rate risk arises primarily from the cash and cash equivalents.

The Company Group does not expect any significant effect on the Group's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the financial period.

18. FAIR VALUES

(a) Fair value hierarchy

The Group and the Company categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 – Quoted prices (unadjusted) in active market for identical assets or liabilities that the Group and the Company can access at the measurement date,

- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and

- Level 3 – Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

18. FAIR VALUES (cont'd)

(b) Assets and liabilities measured at fair value

The following table shows an analysis of each class of assets measured at fair value at the reporting date:

Financial instruments carried at fair value

Group and Company **2023**	Level 1	Total
Assets	USD	USD
Investments at FVTPL	10,412,211	10,412,211
Derivative liability	(112,703)	(112,703)
	10,299,508	10,299,508

(b) Assets and liabilities measured at fair value (cont'd)

Group and Company **2022**	Level 1	Total
Assets	USD	USD
Investments at FVTPL	10,499,585	10,499,585
Derivative liability	-	-
	10,499,585	10,499,585

Sensitivity analysis

For the Group's and the Company's investments at FVTPL, a 10% increase in the net asset values of the investments would have increased/(decreased) the Group's and the Company's profit/(loss) before tax and equity by US$1,029,950 (2022: US$1,049,958). An equal change in the opposite direction would have decreased profit before tax and equity of the Company by the same amount.

18. FAIR VALUES (cont'd)

(c) Assets and liabilities not measured at fair value

The carrying amounts of cash and cash equivalents, other receivables, amount due to shareholder, other payables, approximate their respective fair values due to the relatively short-term maturity of these financial instruments.

The management considers that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the financial statements approximate their respective fair values.

19. CAPITAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and net current asset position to support its business and maximize shareholder value. The capital structure of the Group comprises issued share capital and retained earnings.

In this regard, the director regularly reviews the Group's capital structure with a view for the Group to pay its debts as and when they fall due.

The Group is not subject to any externally imposed capital requirements. There were no changes in the Group's approach to capital management during the financial period.

20. Comparative figures

There are no 31 December 2022 comparative figures for the Group as no consolidated statements were prepared. The comparative figures for the Company are for the financial period from 14 January 2022 (date of incorporation) to 31 December 2022.

21. AUTHORISATION OF FINANCIAL STATEMENTS

The financial statements for the financial year ended 31 December 2023 were authorized for issue in accordance with a resolution of the Board of Directors of the Company on the date of the directors' statement.
