DIRECTORS' STATEMENT
FOR THE FINANCIAL PERIOD 13 MARCH 2024 TO 31 DECEMBER 2024

The directors present this report to the member together with the unaudited financial statements of the company for the financial period ended 31 December 2024.

1. OPINION OF THE DIRECTORS

In the opinion of the directors,

(a) the financial statements of the Company are drawn up so as to give a true and fair view of the financial position of the Company as at 31 December 2024 and the financial performance, changes in equity and cash flows of the company for the financial period 13 March 2024 to 31 December 2024; and

(b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

2. DIRECTORS

The directors in office at the date of this report is: -

Ooi Wei Jie	(appointed on 13/03/2024)
Chen YinJia	(appointed on 13/03/2024)

3. ARRANGEMENTS TO ENABLE DIRECTORS TO ACQUIRE SHARES AND DEBENTURES

Neither at the end of nor at any time during the financial period was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

4. DIRECTORS' INTERESTS IN SHARES AND DEBENTURES

According to the register of directors' shareholdings kept under Section 164 of the Companies Act 1967 (the Act), the directors of the Company who held office at the end of the financial year had no interests in the shares or debentures of the Company and its related corporations except as stated below: -

	No. of ordinary shares Direct Interest	
Name of Director	At 13/03/2024	At 31/12/2024
Ooi Wei Jie	300,000	300,000

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

5. SHARE OPTIONS

There were no share options granted during the financial period to subscribe for unissued shares of the Company.

There were no shares issued during the financial period by virtue of the exercise of options to take up unissued shares of the Company.

There were no unissued shares of the Company under option at the end of the financial period.

6. Audit exemption

The financial statements for the period 13 March 2024 to 31 December 2024 were not audited as the Company meets the audit exemption requirement under the Singapore companies Act, Cap. 50.

The Company is a small Company exempt from audit for its financial year ended 31 December 2024 since it meets the requirements of not exceeding revenue/assets of $10 million and/or 50 employees for the period and in the manner stated in section 205C of the Companies Act;

No notice has been received from any member under Section 205B(6) or Section 205C(2) of the Act requiring the Company to obtain an audit of its financial statements in relation to the financial period.

The accounting and other records required to be kept by the Company in accordance with Section199 of the Act have been so kept.

1. CORPORATE INFORMATION

QUAK PTE. LTD. is domiciled and incorporated in the Republic of Singapore on with a registered office at 51 Goldhill Plaza, #20-07, Singapore 308900.

The principal activities of the Company are the development of software and applications (excluding games and cybersecurity), and the provision of information technology consultancy services (excluding cybersecurity). There have been no significant changes in the nature of these activities since the date of incorporation.

2. MATERIAL ACCOUNTING POLICY INFORMATION

2.1 Basis of Preparation

The financial statements of the Company have been drawn up in accordance with Financial Reporting Standards in Singapore (FRSs). The financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies below.

The financial statements are presented in Singapore dollars (S$), which is the Company's functional currency.

The financial statements of the Company have been prepared on the basis that it will continue to operate as a going concern.

2.2. Adoption of new and amended standards and interpretation

The Company has adopted all the new and amended standards which are relevant to the Company and are effective for the annual financial period beginning on 1 January 2024. The adoption of these standards did not have any material effect on the financial statements of the Company.

2.3 Standards issued but not yet effective

A number of new standards and amendments to the standards that have been issued are not yet effective and have not been applied in preparing these financial statements. The directors expect that the adoption of these new and amended standards will have no material impact on the financial statements in the year of initial application.

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.4. Foreign currency transactions and balances

Transactions in foreign currencies are measured in the functional currency of the Company and are recorded on initial recognition in the functional currency at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

2.5. Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. Subsequent to recognition, property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses, if any. The cost of property, plant and equipment includes its purchase price and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Dismantlement, removal or restoration costs are included as part of the cost of property, plant and equipment if the obligation for dismantlement, removal or restoration is incurred as a consequence of acquiring or using the property, plant and equipment.

Depreciation is calculated on a straight-line basis over the estimated useful lives of the assets as follows:

	Useful lives
Office equipment	2 years
Furniture & Fittings	2 years
Leasehold buildings	2 years

The residual value, useful lives and depreciation methods are reviewed at least at the end of each financial period, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in profit or loss in the year the asset is derecognised.

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.6. Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(a) As lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities representing the obligations to make lease payments and right-of-use assets representing the right to use the underlying leased assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. The accounting policy for impairment is disclosed in Note 2.7.

The Company's right-of-use assets are presented within property, plant and equipment (Note 4).

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.6. Leases (cont'd)

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

The Company's lease liabilities are included in borrowings (Note 11).

2.7. Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, (or, where applicable, when an annual impairment testing for an asset is required), the Company makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.7. Impairment of non-financial assets (cont'd)

Impairment losses are recognised in profit or loss.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss.

2.8. Financial instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

(a) Financial assets

Subsequent measurement

Equity instruments

On initial recognition of an investment in equity instrument that is not held for trading, the Company may irrevocably elect to present subsequent changes in fair value in other comprehensive income which will not be reclassified subsequently to profit or loss. Dividends from such investments are to be recognised in profit or loss when the Company's right to receive payments is established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income.

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.8. Financial instruments (cont'd)

Subsequent measurement (cont'd)

Equity instruments (cont'd)

For investments in equity instruments which the Company has not elected to present subsequent changes in fair value in other comprehensive income, changes in fair value are recognised in profit or loss.

Loans and receivables

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

Derecognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

(b) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at FVPL, net of directly attributable transaction costs.

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.8. Financial instruments (contd')

Subsequent measurement

After initial recognition, financial liabilities that are not carried at FVPL are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss

2.9. Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

2.10. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

2. MATERIAL ACCOUNTING POLICY INFORMATION (cont'd)

2.11. Cash and cash equivalents

Cash and cash equivalents comprise cash at banks which are subject to an insignificant risk of changes in value.

2.12. Taxes

(a) Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2.13. Share capital

Proceeds from the issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.14. Revenue

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation

Rendering of services

Revenue from rendering of services is recognised when the service is rendered to and accepted by customers.

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

3.1 Judgements made in applying accounting policies

(a) Determination of functional currency

In determining the functional currency of the Company, judgement is used by the Company to determine the currency of the primary economic environment in which the Company operates. Consideration factors include the currency that mainly influences sales prices of goods and services and the currency of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services.

4. PROPERTY, PLANT AND EQUIPMENT

	Office equipment	Furniture & fittings	Leasehold Buildings	Total

	-	(166,656)	-	21,345.00	1,242,214	1,096,903

12. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company is exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include foreign currency risk and interest rate risk. The Company's overall risk management programmer focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Company. The Company does not use derivative financial instruments.

The following sections provide details regarding the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

(a) Foreign currency risk

The Company has transactional currency exposures arising from interest income that are denominated in a currency other than the functional currency of the Company, primarily SGD. The Company ensures that the net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates where necessary, to address short term balances.

Docusign Envelope ID: C416E2C4-E69D-477D-9F70-993A5E575656

12. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk arises primarily from the cash and cash equivalents.

The Company does not expect any significant effect on the Company's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the financial period.

13. FAIR VALUES

The carrying amounts of amount due from shareholder, deposit, cash and cash equivalents, trade and other payables, based on their notional amounts, reasonably approximate their fair values as they are subject to normal trade credit term and short term in nature.

There are no financial assets or liabilities that are required to be disclosed under the fair value hierarchy levels 1, 2 and 3 in the financial statements

14. CAPITAL MANAGEMENT

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and net current asset position to support its business and maximize shareholder value. The capital structure of the Company comprises issued share capital and retained earnings.

In this regard, the director regularly reviews the Company's capital structure with a view for the Company to pay its debts as and when they fall due.

The Company is not subject to any externally imposed capital requirements. There were no changes in the Company's approach to capital management during the financial period.

15. AUTHORISATION OF FINANCIAL STATEMENTS

The financial statements for the financial period 13 March 2024 to 31 December 2024 were authorized for issue in accordance with a resolution of the Board of Directors of the Company on the date of the directors' statement.
