YWX HOLDING PTE LTD

Company Registration No: 202119939E
(Incorporated in Singapore)

UNAUDITED FINANCIAL STATEMENT FOR THE FINANCIAL YEAR ENDED 31 MAY 2023

YWX HOLDING PTE LTD

STATEMENT BY DIRECTOR

The director of YWX Holding Pte Ltd (the "Company") is pleased to present the statement together with the financial statements for the financial year ended 31 May 2023.

1. Opinion of the director

In the opinion of director,

a) the accompanying financial statements are drawn up so as to give a true and fair view of the financial position of the Company as at 31 May 2023 and the financial performance, changes in equity and cash flows of the Company for the year ended; and

b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

2. Director

The director of the Company in office at the date of this statement is:

Yu Qi Chuan

3. Arrangements to enable director to acquire shares and debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the director of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

4. Director's interest in shares and debentures

According to the register of director's shareholdings kept by the Company under Section 164 of the Singapore Companies Act 1967, the director of the Company who held office at the end of the financial year had no interest in the shares or debentures of the Company and its related corporations except as stated below:

	Direct interest	
Name of director	At 1.6.2022	At 31.5.2023
Ordinary share of the Company		
Yu Qi Chuan	4,211	4,211

Except as disclosed in this statement, no director who held office at the end of the financial year had an interest in any shares, debentures or share options of the Company, either at the beginning or at the end of the financial year.

5. Share options

The Company has no share option scheme.

Yu Qi Chuan
Director

15 August 2023

The accompanying notes form an integral part of the financial statements

These notes form an integral part of the accompanying financial statements.

1. Corporate information

YWX HOLDING PTE LTD (the "Company") is a private limited liability company incorporated and domiciled in Singapore.

The company's registered office is at 66 Elias Road #07-11 Oasis @ Elias, Singapore 519941.

The principal activities of the company are to carry on consultancy and management services. There is no significant changes of these activities during the financial year.

The financial statements of the Company for the current financial year were approved and authorised for issue in accordance with a resolution of the director on date of the Statement by Director.

2. Summary of significant accounting policies

2.1 Basis of Preparation

The financial statements of the Company have been drawn up in accordance with Singapore Financial Reporting Standards ("FRS"). The financial statements have been prepared on the historical cost basis except as disclosed in the accounting policies below. The financial statements are presented in Singapore Dollar ("S$" or "SGD"), which is the Company's functional currency.

2.2 Revenue recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring the promised goods or services to a customer, excluding amounts collected on behalf of third parties. Revenue is recognised when the Company satisfied a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good of service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

Service rendered

Income from services rendered are recognised as a performance obligation satisfied over time and recognised in the period during which the service is provided.

2.3 Taxes

(a) Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted a the end of the reporting period, in the countries where the Company operates and generates taxable income. Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

(b) Deferred tax

Deferred tax is provided using the liability method on temporary differences at the end of the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.4 Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, (or, where applicable, when an annual impairment testing for an asset is required), the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment loss are recognised in profit or loss. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss.

2.5 Financial instruments

(a) Financial assets

Initial recognition and measurement

Financial assets are recognised when, and only when the entity becomes party to the contractual provisions of the instruments.

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Trade receivables are measured at the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third party, if the trade receivables do not contain a significant financing component at initial recognition.

Subsequent measurement

Investment in debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the contractual cash flow characteristics of the asset. The three measurement categories for classification of debt instruments are amortised cost, FVOCI and FVPL. The Company only has debt instruments at amortised cost.

Financial assets that are held for the collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Financial assets are measured at amortised cost using the effective interest method, less impairment. Gain and losses are recognised in the profit or loss when the assets are derecognised or impaired, and through the amortisation process.

De-recognition

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On de-recognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

(b) Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognised initially at fair value plus in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

Subsequent measurement

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gain and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

De-recognition

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When a existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the profit or loss.

2.6 Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment which could affect debtors' ability to pay.

The Company considers a financial asset in default when contractual payments are 60 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

2.7 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand which are subject to an insignificant risk of changes in value. These also include bank overdrafts that form an integral part of the Company's cash management.

2.8 Share capital

Proceeds from issuance of ordinary shares are recognised as share capital in equity. Incremental costs directly attributable to the issuance of ordinary shares are deducted against share capital.

2.9 Significant accounting judgements and estimates

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

Management is of the opinion that there are no significant judgements made in applying accounting estimates and policies that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

3. REVENUE

	2023	2022
	S$	S$
Consultancy and management fees received	33,019	30,420

4. OTHER OPERATING INCOME

	2023	2022
	S$	S$
Gain in exchange - realised	-	234
Sundry income	387	565
	387	799

5. ADMINISTRATIVE EXPENSES

	2023	2022
	S$	S$
Short term lease payment	28,054	25,894
All other administrative expenses	4,812	6,140
	32,866	32,034

6. PROFIT / (LOSS) BEFORE TAX

	2023	2022
	S$	S$
Profit / (Loss) before tax has been arrived at after charging/(crediting):		
Gain in exchange - realised	-	(234)

7. INCOME TAX EXPENSE

The major components of income tax expense recognised in profit or loss for the year ended 31 May 2023 and 31 May 2022 were:

	2023	2022
	S$	S$
Income tax expense		
Current tax expense	-	-
Deferred income tax expense		
Movements in temporary differences	(92)	139
Benefit of deferred income tax asset previously not recognised	139	-
Deferred income tax asset not recognised	(47)	(139)
	-	-
Tax expense	-	-

A reconciliation between tax expense and the product of accounting profit multiplied by the applicable corporate tax rate for the financial year ended 31 May 2023 and 31 May 2022 were as follows:

	2023 S$	2022 S$
Net profit / (loss) before income tax	540	(815)
Tax at the applicable tax rate of 17%	(92)	139
Utilisation of previously unrecognised deferred income tax asset	139	-
Deferred income tax asset not recognised	(47)	(139)
Tax expense for the year	-	-

Income tax is not provided in the accounts as the company has unutilised tax losses of S$275 (2022: S$815) as at 31 May 2023 available for offsetting against future income subject to the provisions of the Income Tax Act and agreement of the Income Tax Authorities.

Deferred income tax asset has not been recognised in respect of this item because it is not probable that future taxable profit will be available against which the company can utilise the benefits.

8. INVESTMENT SECURITIES

	2023 S$	2022 S$
Financial assets		
At fair value through other comprehensive income		
- Equity securities (unquoted)	2,312,380	2,312,380

The Company has elected to measure these unquoted equity securities at fair value through other comprehensive income due to the Company's intention to hold these equity securities for long-term appreciation.

9. OTHER RECEIVABLES

	2023 S$	2022 S$
Deposits	4,570	5,483

10. CASH AND CASH EQUIVALENTS

	2023 S$	2022 S$
Cash at bank	11,205	9,968

11. SHARE CAPITAL

	2023 S$	2022 S$
Issued and fully paid:		
10,000 ordinary share	10,000	10,000

The holders of ordinary shares are entitled to receive dividends as and when declared by the company. All ordinary shares carry one vote per share without restriction. The ordinary shares have no par value.

12. OTHER PAYABLES

	2023 S$	2022 S$
Current		
- Deposit received	6,050	6,050
- Accrued operating expenses	-	216
	6,050	6,266
Non-current		
- Loan payable - shareholders	2,312,380	2,312,380
	2,318,430	2,318,646

The loan payable to shareholders are non-trade, unsecured, interest-free and repayable on demand.

13. Fair value of assets and liabilities

Cash and cash equivalents, other receivables and other payables

The carrying amounts of these balances approximate their fair values due to the short-term nature of these balances.

14. FINANCIAL RISK MANAGEMENT

Financial risk factors

The Company's activities expose it to a variety of financial risks from its operations. The key financial risks include credit risk, liquidity risk and market risk (including interest rate risk and foreign currency risk).

The directors review and agree policies and procedures for the management of these risks, which are executed by the management team. It is, and has been throughout the current and previous financial year, the Company's policy that no trading in derivatives for speculative purposes shall be undertaken.

The following sections provide details regarding the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

There has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risks.

(a) Credit risk

Cash and cash equivalents and non-trade receivables (exclude prepayment) are subjected to immaterial credit loss.

(b) Market risk

(i) Currency risk

The exposure of the company to foreign currency fluctuations is limited.

(ii) Interest rate risk

At balance sheet date, the company had no variable interest rate borrowings.

As the company has no significant interest bearing assets, the company's income is substantially independent of changes in market interest rates.

(c) Liquidity risk

Liquidity risk refers to the risk that the Company will encounter difficulties in meeting its short-term obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. It is managed by matching the payment and receipt cycles. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities. The Company finances its working capital requirements through a combination of funds generated from operations and bank borrowings. The directors are satisfied that funds are available to finance the operations of the Company.

Analysis of financial instruments by remaining contractual maturities

The table below summarises the maturity profile of the Company's financial assets and liabilities at the reporting date based on contractual undiscounted repayment obligations.

At 31.5.2023	Carrying amount S$	Contractual cash flows S$	One year or less S$	One to five years S$
Financial assets				
Other receivables	4,570	4,570	4,570	-
Cash and cash equivalents	11,205	11,205	11,205	-
Total undiscounted financial assets	15,775	15,775	15,775	-
Other payables	2,318,646	2,318,646	2,318,646	-
Total undiscounted financial liabilities	2,318,646	2,318,646	2,318,646	-
Total net undiscounted financial liabilities	(2,302,871)	(2,302,871)	(2,302,871)	-

At 31.5.2022				
Financial assets				
Other receivables	5,483	5,483	5,483	-
Cash and cash equivalents	9,968	9,968	9,968	-
Total undiscounted financial assets	15,451	15,451	15,451	-
Other payables	2,318,646	2,318,646	2,318,646	-
Total undiscounted financial liabilities	2,318,646	2,318,646	2,318,646	-
Total net undiscounted financial liabilities	(2,303,195)	(2,303,195)	(2,303,195)	-

15. Financial instruments by category

At the reporting date, the aggregate carrying amounts of financial assets at amortised cost and financial liabilities at amortised cost were as follows:

	2023 S$	2022 S$
Financial assets measured at amortised cost		
Other receivables	4,570	5,483
Cash and cash equivalents	11,205	9,968
Total financial assets measured at amortised cost	15,775	15,451
Financial liabilities measured at amortised cost		
Other payables	2,318,430	2,318,646
Total financial liabilities measured at amortised cost	2,318,430	2,318,646

16. Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and net current asset position in order to support its business and maximise shareholder value. The capital structure of the Company comprises issued share capital and retained earnings.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company is not subject to any externally imposed capital requirements. No changes were made to the objectives, policies or processes during the financial year ended 31 May 2023 and 31 May 2022.
